ORDER

GRANTING DEFENDANT’S MOTION TO DISMISS

For the reasons discussed during the preliminary status conference held on October 13, 2009, and as further set forth in defendant’s motion to dismiss filed on October 14, 2009, the court does not have jurisdiction over plaintiff’s complaint seeking the return of financial assets and other personal property that plaintiff alleges were unlawfully retained by the attorneys who represented him in criminal proceedings brought against him by the United States. Defendant’s motion to dismiss for lack of subject-matter jurisdiction is hereby GRANTED. The clerk is directed to dismiss the complaint pursuant to RCFC 12(b)(1).
