### **DECISION**<sup>1</sup>

**GOLKIEWICZ**, Special Master.

On March 15, 2011, the parties to the above-captioned case filed a Stipulation memorializing their agreement as to the appropriate amount of compensation in this case. Petitioner alleges that she suffered the onset of acute disseminated encephalomyelitis, hypereosinophilia, erythema multiforme, hematologic markers suggestive of systemic lupus erythematosus, and Sjogren syndrome as a consequence of the hepatitis B, hepatitis A, inactivated polio virus, and diphtheria-tetanus toxoid vaccinations she received on February 22, 2006. Petitioner further alleges that she experienced the residual effects of the injury for more than six months. Respondent denies that petitioner suffered any injuries or conditions that were caused-in-fact by her hepatitis B, hepatitis A, inactivated polio virus, and diphtheria-tetanus toxoid vaccinations. Nonetheless, the parties agreed informally to resolve this matter. Stipulation, filed March 15, 2011.

Any motion for redaction must be filed by no later than fourteen (14) days after filing date of this filing.** Further, consistent with the statutory requirement, a motion for redaction must include a proposed redacted decision, order, ruling, etc.

**STIPULATION**

The parties hereby stipulate to the following matters:

1. Petitioner, Neeru Arora, filed a petition for vaccine compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10 to 34 (the "Vaccine Program"). The petition seeks compensation for injuries allegedly related to petitioner's receipt of Hepatitis A ("Hep A") vaccine, Hepatitis B ("Hep B") vaccine, inactivated polio virus ("IPV") vaccine, and diphtheria-tetanus toxoid ("DT") vaccine, which vaccines are contained in the Vaccine Injury Table (the "Table"), 42 C.F.R. § 100.3 (a).

2. Petitioner received Hep A, Hep B, IPV, and DT immunizations on February 22, 2006.

3. The vaccines were administered within the United States.

4. Petitioner alleges that following receipt of her Hep A, Hep B, IPV, and DT immunizations, she suffered the onset of acute disseminated encephalomyelitis, hypereosinophilia, erythema multiforme, hemotologic markers suggestive of systemic lupus erythematosus, and Sjogren syndrome. Petitioner further alleges that these conditions were caused in fact by the immunizations. In addition, petitioner alleges that she experienced the

residual effects of these conditions for more than six months.

5. Petitioner represents that there has been no prior award or settlement of a civil action for damages on her behalf as a result of her condition.

6. Respondent denies that petitioner suffered any injuries or conditions that were caused by the Hep A, Hep B, IPV, and/or DT immunizations. Respondent further denies that petitioner experienced the residual effects of a vaccine-related injury for more than six months.

7. Maintaining their above-stated positions, the parties nevertheless now agree that the issues between them shall be settled and that a decision should be entered awarding the compensation described in paragraph 8 of this Stipulation.

8. As soon as practicable after an entry of judgment reflecting a decision consistent with the terms of this Stipulation, and after petitioner has filed an election to receive compensation pursuant to 42 U.S.C. § 300aa-21(a)(1), the Secretary of Health and Human Services will issue the following vaccine compensation payment:

A lump sum of \$200,000.00 in the form of a check payable to petitioner. This amount represents compensation for all damages that would be available under 42 U.S.C. § 300aa-15(a).

9. As soon as practicable after the entry of judgment on entitlement in this case, and after petitioner has filed both a proper and timely election to receive compensation pursuant to 42 U.S.C. § 300aa-21(a)(1), and an application, the parties will submit to further proceedings before the special master to award reasonable attorneys' fees and costs incurred in proceeding upon this petition.

10. Petitioner and her attorneys represent that they have identified to respondent all known sources of payment for items or services for which the Program is not primarily liable

under 42 U.S.C. § 300aa-15(g), including State compensation programs, insurance policies, Federal or State health benefits programs (other than Title XIX of the Social Security Act (42 U.S.C. § 1396 et seq.)), or by entities that provide health services on a pre-paid basis.

11. Payment made pursuant to paragraph 8 and any amounts awarded pursuant to paragraph 9 of this Stipulation will be made in accordance with 42 U.S.C. § 300aa-15(i), subject to the availability of sufficient statutory funds.

12. The parties further agree and stipulate that, except for any award for attorneys' fees, litigation costs, and past unreimbursable expenses, the money provided pursuant to this Stipulation will be used solely for the benefit of petitioner as contemplated by a strict construction of 42 U.S.C. §300aa-15(a) and (d), and subject to the conditions of 42 U.S.C. § 300aa-15(g) and (h).

13. In return for the payments described in paragraphs 8 and 9, petitioner, on behalf of herself, and her heirs, executors, administrators, successors or assigns, does forever irrevocably and unconditionally release, acquit and discharge the United States and the Secretary of Health and Human Services from any and all actions or causes of action (including agreements, judgments, claims, damages, loss of services, expenses and all demands of whatever kind or nature) that have been brought, could have been brought, or could be timely brought in the Court of Federal Claims, under the National Vaccine Injury Compensation Program, 42 U.S.C. § 300 aa-10 et seq., on account of, or in any way growing out of, any and all known or unknown, suspected or unsuspected personal injuries to or death of petitioner resulting from, or alleged to have resulted from, the Hep A, Hep B, IPV and/or DT vaccinations administered on February 22, 2006, as alleged by petitioner in a petition for vaccine compensation filed on or about February

11, 2009, in the United States Court of Federal Claims as petition No. 09-83V.

14. If petitioner should die prior to entry of judgment, this agreement shall be voidable upon proper notice to the Court on behalf of either or both of the parties.

15. If the special master fails to issue a decision in complete conformity with the terms of this Stipulation or if the Court of Federal Claims fails to enter judgment in conformity with a decision that is in complete conformity with the terms of this Stipulation, then the parties' settlement and this Stipulation shall be voidable at the sole discretion of either party.

16. This Stipulation expresses a full and complete negotiated settlement of liability and damages claimed under the National Childhood Vaccine Injury Act of 1986, as amended. There is absolutely no agreement on the part of the parties hereto to make any payment or to do any act or thing other than is herein expressly stated and clearly agreed to. The parties further agree and understand that the award described in this Stipulation may reflect a compromise of the parties' respective positions as to liability and/or amount of damages, and further, that a change in the nature of the injury or condition or in the items of compensation sought, is not grounds to modify or revise this agreement.

17. This Stipulation shall not be construed as an admission by the United States or the Secretary of Health and Human Services that the Hep A, Hep B, IPV, and/or DT vaccinations caused petitioner to suffer any injury or condition, or that petitioner experienced the residual effects of a vaccine-related injury for more than six months.

18. All rights and obligations of petitioner hereunder shall apply equally to petitioner's heirs, executors, administrators, successors, and/or assigns.
